

THE WORD- ETERNAL

Your eternal word, O LORD, stands firm in heaven.

PSALM
119:89 NLT

What is the word of God in its reality? Some attribute it to words constructed in language but it is far more than that. However language only helps to qualify the heart, essence or spirit that has to be communicated. What is known as the word is only a human explanation of what is the eternal nature of God.

The word of God is the package of God's eternity and eternal nature, a nature that spans beyond time, beyond space and worlds. In trying to bring this weighty eternal force to the level of a lower degree of glory, it is

packaged in words. Yet those words are carriers of all of its eternal force. The power of this eternal word and force spans beyond worlds and lives eternally in the heavens, settled in its ambits. It is endless in its powers, measureless in its accomplishments; you can't put a measurement to it except you try to define it by time. In reality, all of its endless possibilities and eternal force and abilities is resident in your spirit and heart.

The word of God at work in you makes you align with eternity, and makes your heart heavy with God's eternal force, and not subject to this world and its crushing times. Spend time meditating on these realities.

Proclamation

I proclaim the word of God is eternally blazing in my heart. I have God's eternal force at work in me and I am above this world's weak and crushing times.

ACT

Spend time to meditate on the article as you pray it into your spirit.

WHAT'S YOUR RESOLVE?.....
